

Figure 1 :RT-PCR expression analysis of Cripto on colorectal cancer patients, SybrI detection (T indicates tumor colon, N indicates matched normal tissue).

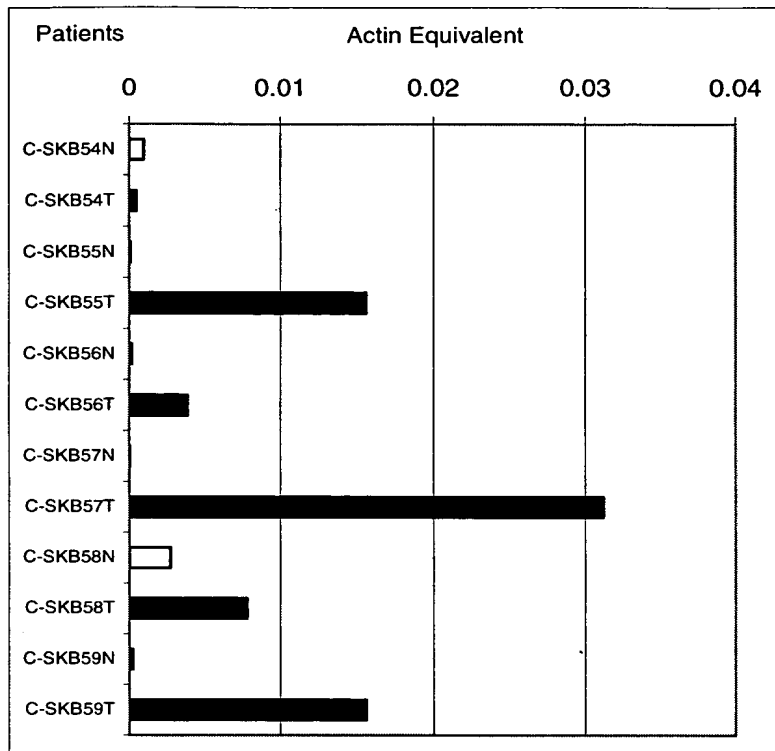

Figure 2 :RT-PCR expression analysis of Cripto on colorectal cancer patients, TaqMan detection (T indicates tumor colon, N indicates matched normal tissue).

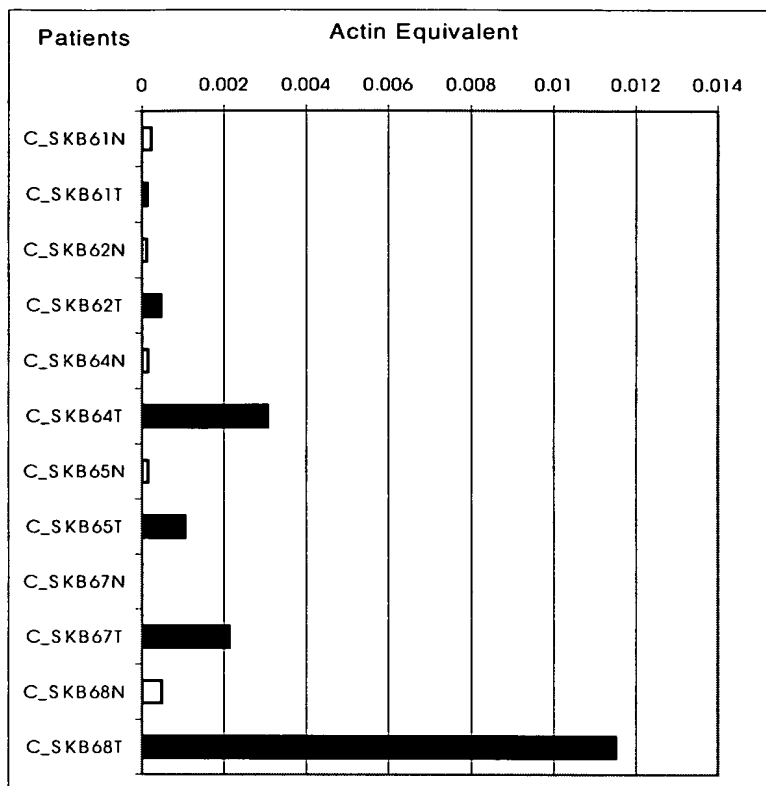

Figure 3 : RT-PCR expression analysis of Cripto on a panel of normal tissues, SybrI detection.

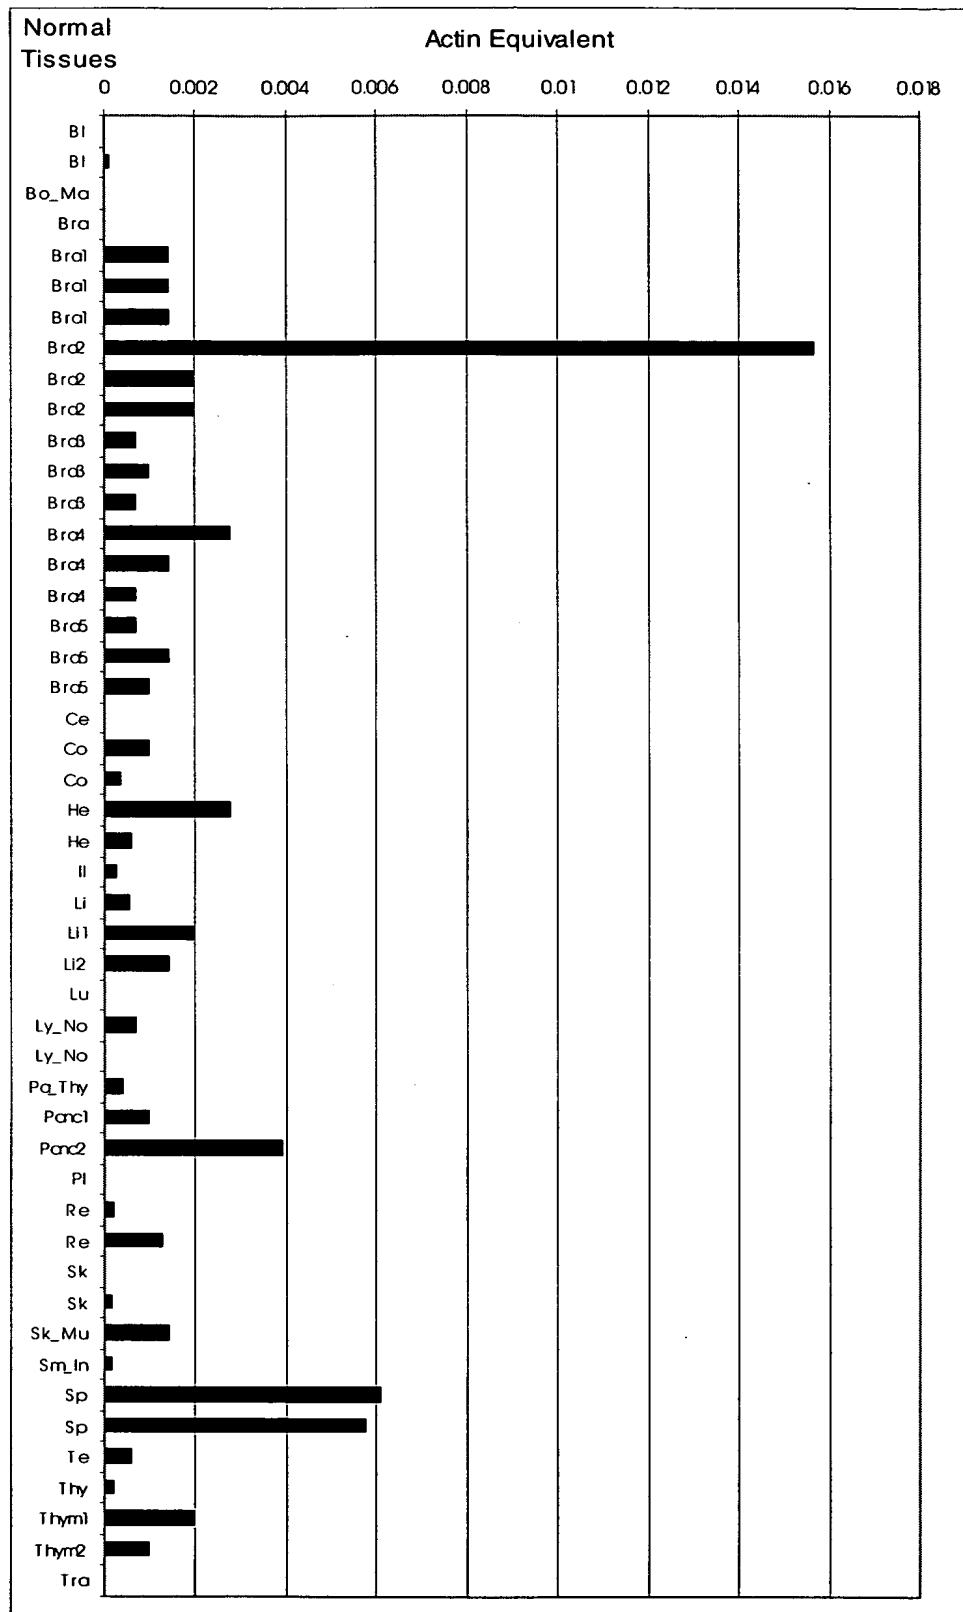

Figure 4 : RT-PCR expression analysis of Cripto on a panel of normal tissues, TaqMan detection.

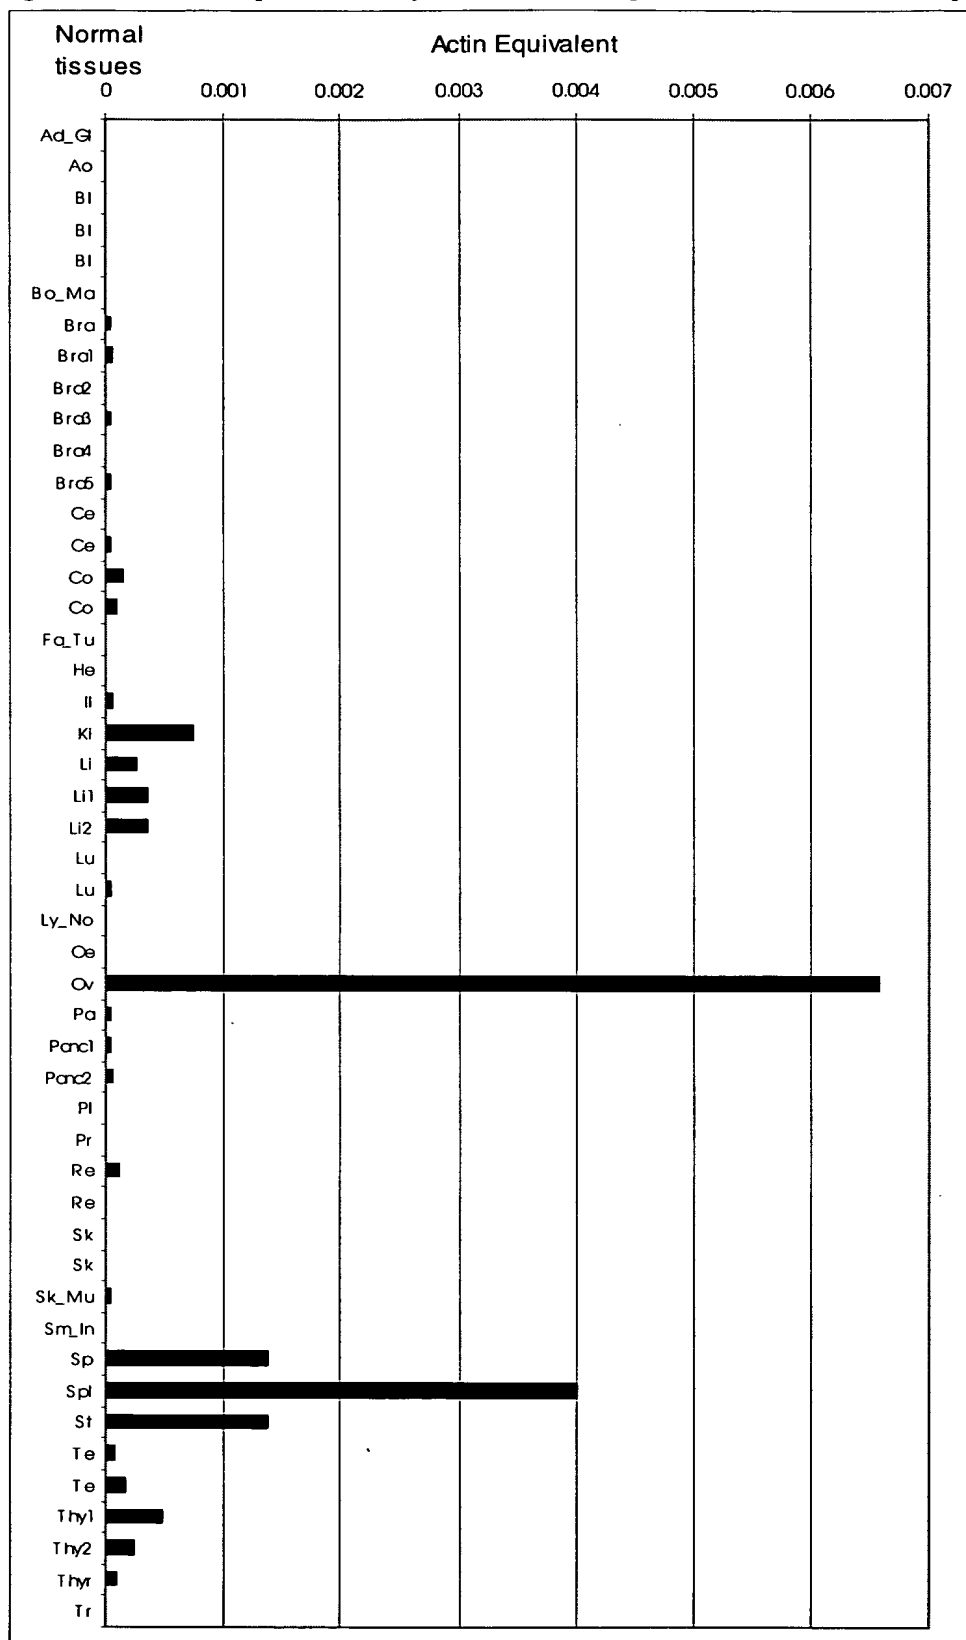

Figure 5 : RT-PCR expression analysis of Cripto on a panel of cell lines.
